

BATH INTERFAITH GROUP

SHARIFH

SHARIng the Future in Hope ...

was founded in 1979, by Dr Brian Pamplin, a scientist deeply interested in the relationship between science and religion. He wanted to provide a forum for open discussion and sharing of ideas and beliefs. After his death in 1985, SHARIFH became Bath Interfaith Group and continues to promote fellowship among those of differing faiths. The nine current members of the Executive Committee represent eight faith communities.

Bath Interfaith Group meets monthly, for a varied programme of talks, discussions and visits. Meetings are free of charge and open to all.

For further information about how you can support the work of Bath Interfaith Group, or for details of the current programme of events [click here](#).
